MEMORANDUM FOR THE RECORD

Telephone Call From Senate Staffer Concerning the IEEW SUBJECT:

Mr. Erland H. Heginbotham of the Senate Foreign Relations Committee called the Production Group on 27 June 1984--readers of the IEEW are directed on page one of each issue to call us with comments and queries--to say that he found the 15 June 1984 IEEW article on high-tech ceramics highly worthwhile. He expressed interest in seeing a similar article appear on the "carbon fiber question," having been told by a friend of his that Japan is investing a great deal of money in carbon fiber research.

I assured him I would pass his comments and telephone
number on to the appropriate individuals but made no other
commitments. Deputy Chief of OGI's Civil Technology
Industry Division, has been informed of the call.

Chief, Production Group Office of Global Issues
